

Dear Friends

There's such a beautiful simplicity in participating in a local non-profit that embodies the heart and history of an Acton village, while preserving two of its priceless historic assets: the 1707 **Jones-Faulkner Homestead** and the 1732 **Jones Tavern**. This year, IWF members and friends held open houses, outdoor events, educational programs and preservation projects all to highlight the village and those who lived there.

Like many generations of Faulkners and Joneses, you can make a difference. Everything we do is possible because of your continued support. *Thank you in advance for joining us as an Iron Work Farm member, renewing your membership for 2012, and generously donating to our two buildings for their next century.*
